

THINK NEXT GENERATION

We constantly create
enhanced tracks and track systems
that provide the mobility solutions
to help you get the job done.
We think next generation.

CAMSO AND CASE IH **DRIVING FARMING FORWARD**

Every day, we ask ourselves: “Is there a better way to drive farming forward?” We believe there is – by providing mobility solutions to help you get the job done.

At Camso, we do it by developing and manufacturing the broadest range of tracks for all farming applications. Camso tracks increase mobility, and flotation, and reduce soil compaction.

From field preparation to planting, harvesting and transport, Camso tracks help maximize your work while lowering your operating costs.

**OUR TRACKS ARE THE APPROVED CHOICE
OF OEM's, ARE ENDORSED BY DEALERS
AND RECOGNIZED BY FARMERS.**

DRIVEN BY QUALITY

PERFORMANCE AND DURABILITY FROM THE INSIDE OUT

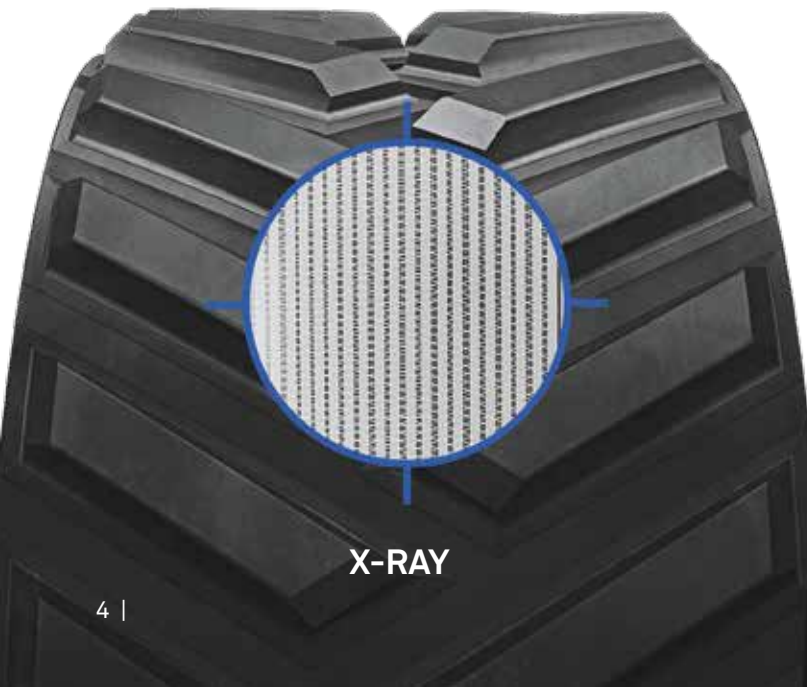

LONGEST LASTING CARCASS

No material displacement during the manufacturing and curing process means:

- Track compound types located exactly where you need it
- Uniform tension distribution, eliminating downtime due to carcass tear
- Controlled cable depth in the wheel path area provides uniform material coverage over the main cables for improved wear and track life

THE RESULT: A FINISHED PRODUCT WITH INCREASED DURABILITY AND PERFORMANCE.

CAMSO'S UNIQUE SINGLE
CURE PROCESS

MOLDING PROCESS

X-RAY

**POSITIVE
DRIVE**

THE RIGHT TRACK FOR YOUR APPLICATION

CAMSO AG 6500 POSITIVE DRIVE

Unmatched industry proven performance, durability and reliability

Drive lugs engineered with patented internal reinforcement technology for the most demanding applications such as scraper, ripper and heavy tillage. It will last you at least an extra season of work and will outperform any other track on the market. Best track life available, reducing cost per hour by an average of 30%.

**SCRAPER, RIPPER AND HEAVY TILLAGE | 1000+ ANNUAL HOUR USAGE
AVAILABLE FOR QUADTRAC**

CAMSO AG 3500 POSITIVE DRIVE

The industry standard track made to last

When it comes to general AG applications, the Camso AG 3500 will provide good balance between reliability, quality and price.

**GENERAL TILLAGE | 1000+ ANNUAL HOUR USAGE
AVAILABLE FOR QUADTRAC, ROWTRAC AND 9300**

CAMSO SCRAPER

Built to withstand the toughest commercial or agricultural scraper conditions with maximum service life

Duradrive internal fabric reinforcement design exclusively on 6500 positive drive tracks.

AVAILABLE FOR QUADTRAC

CAMSO
AG 6500
POSITIVE DRIVE

Unmatched industry proven performance, durability and reliability
Drive lugs engineered with patented internal reinforcement technology for the most demanding applications such as scraper, ripper and heavy tillage. It will last you at least an extra season of work and will outperform any other track on the market. Best track life available, reducing cost per hour by an average of 30%.

High-grade rubber compounds

- Maximizes performance and durability
- Specifically engineered compounds for treads, carcass and guide lugs

Optimized drive lugs

- Allows for maximum power transfer
- Drive lug geometry designed specifically for Quadtrac and Rowtrac drive wheel

6500 Patented with unique internal reinforcement adds an extra season of work

Tread bar

- Provides optimal traction and ride quality
- Balance between traction, cleanout and flotation

Longest lasting carcass

- No material displacement during the manufacturing and curing process means:
- Track compound types located exactly where you need it
 - Uniform tension distribution, eliminating downtime due to carcass tear

CAMSO
AG 3500
POSITIVE DRIVE

The industry standard track made to last
When it comes to general AG applications, the Camso AG 3500 will provide good balance between reliability, quality and price.

CAMSO TRACK FOR QUADTRAC

Exclusive 813 mm (32") wide track

The additional 51 mm (2") width of Camso track vs. the 762 mm (30") keeps the idler wheels centered on the main cables. It improves alignment, reduces drive lug side wear, and protects the idler and midrollers from edge chunking. This feature extends track life and further reduces overall machine operating cost.

Perfect fit for all applications

- Improved idler and roller protection for longer life
- Reduced operating and maintenance cost
- Interchangeable with 762 mm (30") track
- Available in 3500, 6500 and scraper

CAMSO TRACK FOR ROWTRAC

More track life when travelling from field to field

- Designed to get you from field to field with best in class track durability and performance
- Extends track life by 20% versus Camso previous generation of tracks
- Offers the lowest operating cost solution by helping you save at least 30% on your cost per hour compared to competition
- Available for Case IH Steiger Rowtrac, Magnum Rowtrac and New Holland T8 tractors
