INTRODUCING THE NEXT GENERATION OF ROADING TRACK FOR CASE IH ROWTRAC™ TRACTORS CAMSO RD 4500

**Faster roading speeds,
best-in-class performance
and durability**

- Up to 50% faster than previous generation when travelling with implements
- Reduced travel time on the road means up to a 16% increase in field productivity
- Maximized uptime, in the field and on the road

NEW CAMSO RD 4500 **POSITIVE DRIVE** CASE IH STEIGER[®] AND MAGNUM[™] ROWTRAC[™]

CAMSO OFFERS THE BROADEST RANGE OF TRACK WIDTH FOR CASE IH STEIGER AND MAGNUM ROWTRAC*: 16,18, 21, 24 & 30 IN

Longest lasting carcass

No material displacement during the manufacturing and curing process means:

- Uniform tension distribution, eliminating downtime due to carcass tear

Optimized drive lugs

Allows for maximum power transfer

- Drive lug geometry designed specifically for Steiger and Magnum Rowtrac drive wheel

NEW High Roading Tread Bar

New tread bar designed for high speed roading

- Enhanced tread bar shape and advanced rubber compound allowing for faster speeds

NEW 4-Ply Carcass

New carcass specifically designed for high speed roading

- Designed to endure higher internal temperatures during roading

*Magnum Rowtrac is available with 16 inch wide track.
