

CAMSO

RipSaw II 1.5

All-around on- and off-trail performer

The RipSaw II, known for its versatility in all snow types, is taken to another level. Now boasting a 1.5-inch lug height, it's the track for the most demanding 50/50 rider.

- Sharp angled lugs provide excellent bite on hard-pack snow
- Cupped center and full outer lugs provide traction on loose, less compacted snow
- Tapered outside lug edges offer less side bite when cornering
