Conquer 280

Above and beyond the deep stuff

Made to advance the mountain journey. The Conquer 280 offers a lighter mountain design track providing the ultimate in flotation, traction and performance. Its next generation lug geometry reaches new levels of balance in deep snow.

- Lightweight model increases available HP thanks to less rotating mass
- Lug design requires 20% less rider input on turns and 25% less throttle to hold on side hills
- 2.8" alternating single-angled lugs push performance in all-season riding conditions
