

Cobra 1.6

Model 9262C

We've taken the Cobra design, known for excellent performance on the soft, loose snow of ungroomed trails, to another level—now available in a 1.6" lug height for even better traction and performance for on/off trail riding.

- **Cupped lugs for superior acceleration and braking in loose soft snow conditions**
- **Flexible lug design for superior off-trail performance**
- **Designed for factory pre-studded, select lugs are more rigid for traction on hard-packed snow performance**

MODEL	DIMENSIONS	LUG HEIGHT	WEIGHT	DRIVE PITCH	CLIP CONFIG.
9262C	15" x 120" (38 cm x 305 cm)	1.6" (43 mm)	38 lb. (17.25 kg)	2.86" (73 mm)	Full
9263C	15" x 129" (38 cm x 328 cm)	1.6" (43 mm)	40 lb. (18.25 kg)	2.86" (73 mm)	Full
9264C	15" x 137" (38 cm x 348 cm)	1.6" (43 mm)	43 lb. (19.5 kg)	2.86" (73 mm)	Full
9265C	16" x 137" (41 cm x 348 cm)	1.6" (43 mm)	45 lb. (20.5 kg)	2.86" (73 mm)	Full
9282C	16" x 154" (41 cm x 391 cm)	1.6" (43 mm)	50 lb. (22.75 kg)	2.86" (73 mm)	Full
9283C ¹	15" x 154" (38 cm x 391 cm)	1.6" (43 mm)	47 lb. (21.25 kg)	2.86" (73 mm)	Full
9291C	15" x 120" (38 cm x 305 cm)	1.6" (43 mm)	39 lb. (17.75 kg)	2.86" (73 mm)	Full
9292C	15" x 129" (38 cm x 328 cm)	1.6" (43 mm)	41 lb. (18.5 kg)	2.86" (73 mm)	Full
9316C	15" x 144" (38 cm x 366 cm)	1.6" (43 mm)	49.5 lb. (22.5 kg)	2.52" (64 mm)	Full

NEW

- ▲ Embedded sharp tip lug studs
- Single-ply construction
- Enhanced stud easy tracks

¹These track models feature center hole for third driver
